

Athelas

An elegant typeface for books,
successfully used both on
screen and in print.

DESIGNED BY

José Scaglione
Veronika Burian

YEAR

2008

Inspired by Britain's classic literature and created by Veronika Burian and José Scaglione, Athelas prioritises the beauty of fine book printing. It takes full advantage of typographic tranquility - the white space in the margins, between the columns, the lines, the words, and finally, within the characters themselves. Athelas breathes peacefully on the page to usher the reader into the wordsmith's art.

Athelas is a typeface with open counters, elegant curves, and graceful serifs. Fluid shapes in the roman variants meet their counterpart in a more angular italic, but there are no sharp edges in the entire character set. Athelas also takes advantage of the technical developments made in offset printing.

It shows its best side in finely crafted books and high quality printing conditions, or in digital works that place a premium on the tone and beauty of the piece.

Although inspired by British literature, Athelas respects the cultural needs of languages where diacritic marks play an indispensable role. It has a large character set covering most Latin-based languages, as well as monotonic Greek (designed by Irene Vlachou), Cyrillic (designed by Tom Grace) and Arabic (designed by Sahar Afshar). As recognised by its usage in Apple Inc.'s iBooks app and the desktop operating system Mavericks, the complete Athelas family has been optimised for today's varied screen, uses along with our entire catalogue.

Les gestes sont la méthode de communication la plus connue, utilisée par diverses espèces dont l'ensemble des primates. C'est également le cas des abeilles et leurs danses : lorsqu'une abeille exploratrice revient vers sa ruche après avoir trouvé une source de nectar, elle peut effectuer une danse en rond indiquant que cette source se situe à moins de 50 mètres, ou une danse en huit indiquant que cette source est plus lointaine. De plus, la vitesse et la durée de ces danses

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenosť nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky sanskrtu, nejrannější záznamy o kodifikaci liturgického jazyka a uspořádání znaků do abecedy patří do období 8. století

Linguagem pode se referir tanto à capacidade especificamente humana para aquisição e utilização de sistemas complexos de comunicação, quanto a uma instância específica de um sistema de comunicação complexo. O estudo científico da linguagem, em qualquer um de seus sentidos, é chamado linguística. Språk eller tungomål är en del av olika system för kommunikation, som används av människor och som vi börjar tillägna stora bitar av redan under våra första levnadsår. Język służy do przedstawiania rzeczywistości dotyczącej przedmiotów, czynności czy abstrakcyjnych pojęć za pomocą znaków. Zbiór znaków w języku jest otwarty. Jednostka posługująca się językiem może więc za pomocą jego systemu tworzyć nieskończoną liczbę nowych znaków, także takich, z którymi nigdy się wcześniej nie zetknęła. THE DESIGNERS

José Scaglione José Scaglione is a graphic designer, typeface designer, and co-founder of the independent type foundry TypeTogether with Veronika Burian, where they have published numerous award-winning type families. He teaches typography at the University of Buenos Aires, Argentina, and is frequently invited to lecture about typography and to lead workshops on typeface design at international conferences and academic institutions. José co-authored the book *Cómo Crear Tipografías: Del Boceto a la Pantalla*, and collaborated with Jorge de Buen Unna on his book *Introducción al Estudio de la Tipografía*.

In 2012 José acted as chairman of the Letter.2 type design competition and conference and he was appointed president of the Association Typographique Internationale (ATypI) from 2013 to 2017.

Veronika Burian studied Industrial Design in Munich and worked in that capacity in Vienna and Milan over a few years. Discovering her true passion for type, she graduated in 2003 with distinction from the MA in Typeface Design course in Reading, UK. Veronika then worked as a type designer at DaltonMaag in London for a few years, spent some time in Boulder, USA, and then her hometown, Prague, and is now enjoying life in sunny Cataluña, Spain.

Veronika is a type designer and the co-founder of the independent type foundry TypeTogether with José Scaglione, publishing award-winning typefaces and collaborating on tailored typefaces for a variety of clients. She is also involved with Alphabettes.org, a showcase for work and research on lettering, typography, and type design by women, and she continues to give lectures and workshops at international conferences and universities.
