

# Ebony

A high velocity sans serif with a bold voice and daring curves.

DESIGNED BY

**Veronika Burian**  
**José Scaglione**

YEAR

2015

Some typefaces need time to ripen. Veronika Burian and José Scaglione made the first sketches for Ebony back in 2008, but it took a few years of maturing in a drawer to be developed into a multi-functional type family. Ebony remains true to TypeTogether's focus on stylish typographic answers for the complex needs of magazines, newspapers, and books, whether printed or digital. Additionally, Ebony goes far beyond editorial use and promises great performance in branding and advertising.

Ebony's range of dark weights with taut and powerful curves can boost any headline, while the lighter weights create an approachable and clean feel in blocks of continuous text. Ebony does not fall short in aiding legibility either. Letterforms have a distinct direction of ductus, a wide overall stance, and features like the top serif on the lowercase 'l' help make glyphs clearly distinguishable from each other.

Ebony is a type family that cleverly seeks a balance between the openness and legibility of humanist sans serifs and the striking and more regularised character of grotesques. The lettershapes feature

generous counters and open terminals with crisp angles, both of which daringly grow in colour and width as the typeface increases in weight. Beginning from this position of strength, Ebony also shows a quirky side in some of its shapes: the vertical fractions, the @ symbol, the oldstyle numbers, and the short descenders. Its character set has been significantly expanded to include the tonal Vietnamese alphabet, German eszett, and others.

The predominantly slanted style of Ebony's italics is broken up by some letters that are more in line with the classic cursive appearance, such as 'a', 'e', 'f', and 'l'. This, together with a forceful italic angle, ensure a change in texture within a block of text, despite sharing the same weight and width as the upright letters. The complete multilingual family comes in 18 digitally dutiful and print-prepared styles that tend toward the heavier part of the weight spectrum. Whether as the headliner or as the paragraph text, Ebony has been optimised for forward momentum and approachable clout in branding.

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenost nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky sanskrutu, nejranější záznamy o kodifikaci liturgického jazyka a uspořádání znaků do abecedy

THE DESIGNERS

---

**Veronika Burian** studied Industrial Design in Munich and worked in that capacity in Vienna and Milan over a few years. Discovering her true passion for type, she graduated in 2003 with distinction from the MA in Typeface Design course in Reading, UK. Veronika then worked as a type designer at DaltonMaag in London for a few years, spent some time in Boulder, USA, and then her hometown, Prague, and is now enjoying life in sunny Cataluña, Spain.

Veronika is a type designer and the co-founder of the independent type foundry TypeTogether with José Scaglione, publishing award-winning typefaces and collaborating on tailored typefaces for a variety of clients. She is also involved with Alphettes.org, a showcase for work and research on lettering, typography, and type design by women, and she continues to give lectures and workshops at international conferences and universities.

**José Scaglione** is a graphic designer, typeface designer, and co-founder of the independent type foundry TypeTogether with Veronika Burian, where they have published numerous award-winning type families. He teaches typography at the University of Buenos Aires, Argentina, and is frequently invited to lecture about typography and to lead workshops on typeface design at international conferences and academic institutions. José co-authored the book *Cómo Crear Tipografías: Del Boceto a la Pantalla*, and collaborated with Jorge de Buen Unna on his book *Introducción al Estudio de la Tipografía*.

In 2012 José acted as chairman of the Letter.2 type design competition and conference, and he was appointed president of the Association Typographique Internationale (ATypI) from 2013 to 2017.
