

Karmina

A highly legible and economic typeface, perfect for extended reading in editorials & newspapers.

DESIGNED BY

Veronika Burian
José Scaglione

YEAR

2007

Karmina is a text typeface created by José Scaglione and Veronika Burian mainly for pocket books and budget editions. It was built to withstand the worst printing conditions: low quality papers, high printing speed with web presses, and variations in the ink level of the printing press.

The more opportunity for printing to go wrong, the more Karmina does to make it right - the right shapes, right sturdiness, and the right tone with which to approach the reader.

Some of Karmina's most representative features are the rather large serifs intended to work perfectly in small reproduction sizes, the sharpness of the shapes, some calligraphic influences, and the large yet graceful inktraps in the acute connections.

Structurally, Karmina combines a large x-height with relatively compressed letterforms to optimise space-saving. The cumulative result of these features grants Karmina outstanding legibility and economy, and the italic weights capitalise on the inktraps and calligraphic styling to easily set text apart from the roman.

The Karmina family comes in four styles, speaks multiple languages, and, along with our entire catalogue, has been optimised for today's varied screen uses.

Be sure to check out Karmina Sans for a versatile and vivid companion to Karmina.

C'est également le cas des abeilles et leurs danses : lorsqu'une abeille exploratrice revient vers sa ruche après avoir trouvé une source de nectar, elle peut effectuer une danse en rond indiquant que cette source se situe à moins de 50 mètres, ou une danse en huit indiquant que cette source est plus lointaine. De plus, la vitesse et la durée de ces danses témoignent de

Språk eller tungomål är en del av olika system för kommunikation, som används av människor och som vi börjar tillägna stora bitar av redan under våra första levnadsår. Begreppet språk har två nära sammanbundna men ändå separata betydelser; dels syftar det på det mänskliga

Vědecký obor zabývající se zkoumáním jazyka se nazývá lingvistika. Otázky týkající se filosofie jazyka byly pokládány již ve starověkém Řecku, byly zde otázky typu zda mohou slova reprezentovat zkušenost nebo motivovanost obsahu slov, konkrétními památkami jsou například Platónovy dialogy Gorgias a Faidros. Ještě časnějším dokladem uvažování o jazyku jsou gramatiky sanskrtu, nejranější záznamy o kodifikaci litergického jazyka a uspořádání znaků do abecedy patří do období 8. století př. n. l.

Il linguaggio, in linguistica, è il complesso definito di suoni, gesti e movimenti attraverso il quale si attiva un processo di comunicazione. La facoltà di rappresentare mentalmente un significato è presente in molte specie di animali, tra le quali l'essere umano. La capacità di elaborare e produrre un linguaggio verbale, nell'uomo, si è sviluppata a seguito di mutamenti strutturali della cavità orale. In particolare l'arretramento dell'ugola ha reso l'essere umano capace di esprimere una gamma sonora

Język służy do przedstawiania rzeczywistości dotyczącej przedmiotów, czynności czy abstrakcyjnych pojęć za pomocą znaków. Zbiór znaków w języku jest otwarty. Wynika to z faktu, że znakiem językowym jest każdy tekst, każda sformułowana wypowiedź, posiadająca znaczenie. Jednostka posługująca się językiem może więc za pomocą jego systemu stworzyć nieskończoną liczbę nowych znaków, także takich, z którymi nigdy się wcześniej nie zetknęła. THE DESIGNERS

Veronika Burian studied Industrial Design in Munich and worked in that capacity in Vienna and Milan over a few years. Discovering her true passion for type, she graduated in 2003 with distinction from the MA in Typeface Design course in Reading, UK. Veronika then worked as a type designer at DaltonMaag in London for a few years, spent some time in Boulder, USA, and then her hometown, Prague, and is now enjoying life in sunny Cataluña, Spain.

Veronika Burian is a type designer and the co-founder of the independent type foundry TypeTogether with José Scaglione, publishing award-winning typefaces and collaborating on tailored typefaces for a variety of clients. She is also involved with Alphabettes.org, a showcase for work and research on lettering, typography, and type design by women, and she continues to give lectures and workshops at international conferences and universities.

José Scaglione is a graphic designer, typeface designer, and co-founder of the independent type foundry TypeTogether with Veronika Burian, where they have published numerous award-winning type families. He teaches typography at the University of Buenos Aires, Argentina, and is frequently invited to lecture about typography and to lead workshops on typeface design at international conferences and academic institutions. José co-authored the book *Cómo Crear Tipografías: Del Boceto a la Pantalla*, and collaborated with Jorge de Buen Unna on his book *Introducción al Estudio de la Tipografía*.

In 2012 José acted as chairman of the Letter.2 type design competition and conference and he was appointed president of the Association Typographique Internationale (ATypI) from 2013 to 2017.
