Section

In the wrong hands, geometric fonts can be overly procedural, but Wolfgang Homola's sans serif type family excels at combining the spark of inspiration with mathematical precision. Soleil is an ostensibly geometric type family that cleverly avoids being dogmatic about its geometry.

Soleil's letterforms are the result of a thoughtful design process that brings together simplicity with lively, fluid rhythm, as opposed to rote mathematics. Created for a wayfinding and signage system during a renovation of a 1950s modernist building – the labour office in Vienna – Homola's design is subtle and refined, and based on a process that involved countless hand sketches before digitisation. Its design includes generous mirrored counters, tall ascenders, slow curves that stress a purposeful mechanic construction and a large x-height for legibility at a distance or in small sizes. Its personality is seen, for example, in the friendly lowercase 'f', the perfect curve of the open 'c', a narrow 's' and 'w', and its three-stroke 'k'. Upper cases feature rather contemporary horizontal proportions and obliques meticulously crafted to match the upright's advance width to near perfection..

Soleil fits a wide range of potential applications: signage and wayfinding systems being the most obvious based on its provenance; book and magazine design; branding and corporate identity programmes.

Soleil consists of seven weights with respective italics and a twisting, two-sided MC Escher-like display style called Magic Caps — perfect for branding and merchandising when something eye-catching is required.

Soleil underwent an update in the spring of 2026 that added support for Vietnamese and Pinyin notation, as well as variable fonts using the weight axis, in addition to numerous minor improvements. OpenType features allow for the implementation of typographic niceties such as small caps, both tabular and proportional lining and oldstyle figures, ligatures, alternate characters, case-sensitive variants, and fractions. All together, Soleil's contemporary and pleasing characteristics make it a great choice to replace overused or unpalatable geometric typefaces.

LIGHT I woke up on my back. All around me the long grass quietly tossed and turned in the wind, and above me the moonless sky was fading from indigo to grey. For a moment or two I was blank, not knowing where I was—perhaps not quite remembering who I was—and lacked the energy to wonder how it was that I might have ended up here, in the corner of this field. I turned my head to the left and saw the outline of my bike, lying in the shelter of the hedge. And there beside it were my orange helmet and my cycling shoes, neatly lined up as I always left them when

The designers

Wolfgang Homola is an independent type and graphic designer based in Vienna. After his studies at 'die Graphische' in Vienna, he worked several years for Bohatsch Visual Communication in Vienna and for Harper Collins Publishers in London. In 2004, he received his MA in Typeface Design at the University of Reading, UK.

During his career Wolfgang has designed postage stamps, award-winning books, dictionaries, bibles, annual reports, signage and wayfinding systems, logos, and visual identities. He teaches graphic design at BA level, writes articles, and gives lectures about typography and visual communication, even as he continues to design typefaces.

Licensing at TypeTogether

Family upgrades
Bundles are always less expensive than purchasing a few styles at a time. If you buy a single style (or more) now, you will never be charged more than the bundle price when upgrading at a later date. This is a great way to explore a new typeface without full commitment. To take advantage of the upgrade, please email *info@type-together.com.*

Custom work
We offer custom font solutions tailored to your needs. This includes developing new typefaces from scratch, modifying existing typefaces, extending language support, and creating logotypes.
Please contact us for details at *info@type-together.com*.

Licensing
Our complete font catalogue, along with the presented type family here, are available for print, self-hosted web applications, and app embedding from TypeTogether's online store.

For other types of licences and more information, please contact us at *info@type-together.com.*

Testing our fonts
TypeTogether actively seeks ongoing dialogue with all type users and therefore offers free temporary licences to test any of our typefaces. The test fonts are fully functional and include the entire character set and OpenType features. To request test fonts, please contact us at *info@type-together.com.*

Premier
TypeTogether Premier is our free service that makes it easy for creatives to access and test our entire font library with a one-click trial licence. You'll find over 100 high-quality, award-winning font families, 900+ styles, and support for 13 unique writing systems, with more on the way. And only TypeTogether Premier partners are the first to test beta fonts and use them in commercial work before anyone else.

To apply now for TypeTogether Premier, go to www.type-together.com/premier and select Sign Up.

Educational & charity discount
TypeTogether offers an educational discount on all typeface purchases for students and those in education (schools, departments, etc.). This discount also extends to NGOs and charities in general. Please contact us for details at *info@type-together.com.* For further information, samples, and ordering, visit www.type-together.com.

About this specimen
This specimen has been set using Adelle Sans Light, Adelle Sans Bold, and Adelle Mono Flex Regular using texts from *An equal music,* by Vikram Seth, *Where there's a will,* by Emily Chappell, *The fraud,* by Zadie Smith, *Eye Magazine* blog, and Wikipedia.org.
